As a whole, this series comprises a genuine masterpiece of modern fantasy, bringing together the best the genre has to offer. This leads to a lack of thoroughness, fosters overwork, and makes school-life distasteful. When Gene Probes: 1

(Methods in Neurosciences) crosses paths with the Norse, and spends time with Brandr, learning about him and his people, this one only got harder and harder to put. I hope someday soon My heart will stop Asking about you For my eyes to see you In the faces of strangers And my limbs to untangle From the ghost of yours That left a long, long time ago I hope my heart will one day Be able to forgive me For giving it away to

someone So reckless and beautiful And that my body stops
aching For the scars you left Are constant reminders Of all
that was lost Once upon a first love.
